### Bruderheim celebrates collaboration

On September 8th, the Town of Bruderheim celebrated the completion of over 1.2 million dollars in renovations to the Karol Maschmeyer Arena. Together with numerous friends of Bruderheim, we were able to save our arena from permanent closure. Geographically, we are surrounded by two thriving counties and a city that count on us to provide recreational programs to their residents as well as ours. Over the last twenty years, the Bruderheim Arena has been home to numerous winter recreational activities that truly define Albertans as community partners. The region is connected through shared recreation and cultural experiences within our communities. These connections are the anchor for partnerships at the local, provincial and federal level.

“Throughout Canada, communities are adding improved infrastructure and amenities for use by residents and visitors alike,” said the Honourable Navdeep Bains, Minister of Innovation, Science and Economic Development and Minister responsible for Western Economic Diversification Canada. “Here, in Bruderheim, the Canada 150 Community Infrastructure Program-funded Karol Maschmeyer Arena will be enjoyed for generations to come.”

We have erected a sign to celebrate major supporters that reside outside of the Town of Bruderheim. This sign is intended to celebrate and present continued partnerships with the following agencies who contributed over \$30,000:

- Government of Canada – Canada150 Community Infrastructure Program
- Alberta Government – Community Facility Enhancement Program  
Alberta Community Partnership Grant  
Municipal Sustainability Initiative
- Pembina Pipeline
- Strathcona County
- City of Fort Saskatchewan
- Lamont County
