### **Bruderheim makes strategic land acquisition**

The Town of Bruderheim is taking another positive step for the future with a strategic land acquisition. Following the completion of sale in 2018, the property south of the cemetery on the east side of Highway 45 will support the Town's growth and development.

"It's not often a municipality has an opportunity like this to guide long-term planning and sustainability," says Bruderheim Mayor, Karl Hauch.

The sale of land to the Town of Bruderheim provides an opportunity for progressive municipal development. The intent is that development will address the social pillars of the community, such as social housing, recreation or professional services.

"We are so fortunate to continue to be supported by commercial and industrial partners in the region. On behalf of our residents, Town Council and staff, we offer a big thank you to the landowner for working together with us toward a bright future for Bruderheim."
