
The Inspections Group Inc.

The Inspections Group Inc. was incorporated in 2001. We provide compliance monitoring services under the Alberta Safety Codes Act for five disciplines: building, electrical, plumbing (including private sewage disposal systems) gas and fire. The Inspections Group Inc. also provides permit issuance and inspection services for residential, commercial and industrial sites throughout the province of Alberta

GAS PERMIT INSPECTION SERVICE INFORMATION SHEET

Gas Permit Inspection Service Information Sheet

A permit in the gas discipline is required to install, alter or add to a gas system.

Please be aware that when you purchase a permit you are only getting an inspection done to the minimum required levels in the Quality Management Plan.

To be an informed buyer, it is critical that you know what inspection(s) you get and if you would like to have more inspections on your project, this can be easily arranged at the time of your permit application.

Type of Install / Permit	Inspections Required Under QMP	Inspection Stage
Contractor permit for non residential / multi-family residential installation with up to 400,000 BTU	1	Rough-in OR Final (Within 180 days of issuance)
Contractor permit for non residential / multi-family residential installation with 400,001 BTU and more	2	Rough-in AND Final (Within 365 days of issuance)
Contractor or homeowner permit for residential installation	1	Final (Within 180 days of issuance for Contractor) Final (Within 365 days of issuance for Homeowner)
Temporary heat installation / propane tank sets	1	Final (Within 90 days of issuance)

Cost of additional Inspection \$95
